Example of a one-man AccuAquatics Franchise independent unit owner pool service business adds up!

A pool service professional working by himself has the potential to make about \$50 - \$60 per hour cleaning and servicing pools. The expenses to run a pool service business should be about 20 – 25 percent of the monthly service billing amount.

- The primary expenses in a pool service business include pool chemicals, gas, insurance, and office supplies.
- The average pool route business owner working full-time and running an efficient route could have a yearly net income from weekly service and repairs (income after expenses) of \$75,000 to \$85,000+ per year.
